

ASSESSMENT-1

Design a static web page to showcase your professional skills and projects. Your page should include the following:-

1. **Home Page (index.html):**
 - Include a welcome message and a brief overview of what visitors can find on your website.
 - Add navigation links to other pages (e.g., About Me, Portfolio, Contact).
2. **About Me Page (about.html):**
 - Provide a detailed biography, including your educational background, professional experience, and any relevant certifications.
 - Include a timeline or visual representation of your career journey.
 - Embed a link to your LinkedIn profile.
3. **Portfolio Page (portfolio.html):**
 - As described earlier, showcase your top three projects with detailed information.
 - Optionally, include a gallery or carousel displaying project screenshots.
4. **Skills Page (skills.html):**
 - Expand on the technical skills listed on the home page. Provide a more in-depth explanation of each skill and its relevance to your work.
5. **Testimonials Page (testimonials.html):**
 - Highlight any specific achievements or outcomes mentioned in the testimonials.
6. **Resume Page (resume.html):**
 - Host your resume in HTML format for easy online viewing.
 - Provide a downloadable link to the resume in PDF format.
7. **Contact Page (contact.html):**
 - Display the contact form for visitors to get in touch.
 - Add your professional email address and links to your social media profiles.

Remember to consider the overall professionalism and usability of the page in your design choices.
